The diagram shows a calculator interface with two rows of buttons. The left row contains 10 buttons: a 3x3 grid of 9 buttons with a downward arrow and one empty square, followed by two buttons with downward arrows. The right row contains 16 buttons: a 4x3 grid of 12 buttons with mathematical symbols and two buttons with downward arrows. The symbols include division, modulo, parentheses, percent, equals, dollar sign, ampersand, plus, minus, multiplication, factorial, double quote, section sign, and hash.

The diagram shows a 15-puzzle state on a 4x4 grid. The tiles are numbered 1 through 15, and there are 4 empty spaces (represented by white squares). The layout is as follows:

15	1	2	3	4
14	5	6	7	8
13	9	10	11	12
